Nuerburgring Classic postponed to 2022

The actual times are difficult times for all of us – our team from the organising office of the Nuerburgring Classic wish all of you a good mood, good health and good times with your friends and family.

The organisers of the Nuerburgring Classic Race Event have decided to postpone the next edition of the race event to 2022.

The next edition of the international historic motorsport meeting „Nuerburgring Classic“ will take place from May 20th until May 22nd, 2022.

The edition no.4 - planned for this years end of May – will be postponed by a year to 2022 to take place at one of the most authentic and spectacular racetracks in the world: The legendary Nuerburgring.

In order to guarantee the high quality level of this gathering of historic motorsports enthusiasts, collectors, teams, racers and fans together with VIP-visitors and the media we have decided to postpone. We made this decision with support and in consent with our partners.

In the actual situation with the COVID-19 circumstances of a pandemic situation and the absolute need to follow strict protective actions and official instructions by the authorities, knowing that national and international entrants, racers, teams, visitors and guests will still face ongoing health concerns, this decision was made. It is the responsibility for all of us within our society that leads to such a decision.

Many of the entrants and teams have been working on the wonderful and extraordinary cars, series have submitted impressive lists of full grids to participate and many visitors have ordered their pre-sale tickets already... are planning their journey. The development of the C-19 situation right now does not allow a secure or firm planning. Unfortunetaly.

Vaccination and testing is developing steadily but not fast enough everywhere to show effects which would be necessary.

The features for the postponed event will be the same in 2022. Decorated paddocks with the 34m high ferris wheel, a truly family oriented-program in the paddocks, with talks, VIP-pilots, the live-arena, a pop concert, races, demonstration-laps, heroes of yesterday, the meeting of the old race-trucks and a real time travel. A main part will be the prewar car meeting again, the regularity runs, the experience runs on Grand Prix Track and Nordschleife

as well as the races of the FHR, the Youngtimer Trophy and the „Formula Classics“ with F1, F2 bolides on the track. Much to look out for!

You will see 800 entrants and teams in more than 20 races and special runs.

Nuerburgring Classic will remain the international gathering at one of the most legendary tracks in the world and friends can count on top quality as always – on the track – and in the paddock..

All tickets purchased to date for this years meeting „Nuerburgring Classic“ be valid for the event-weekend from May 20th until May 22nd, 2022. Further information can be found on the website in updated FAQs.

Take care – stay in a good mood – and: Gentlemen... start your engines!
